Notes & Details

Before using the electric meat mixer, please follow these important precautions: Always inspect the mixer for any damage or issues before use, and ensure it is properly assembled. Do not exceed the maximum load to prevent overloading the motor. Keep hands, clothing, and other objects away from the mixing chamber while the machine is in operation. Make sure the power supply is disconnected before cleaning or performing maintenance. Use the mixer on a stable, flat surface to prevent instability during operation. Regularly clean the machine after each use with food-safe cleaning agents to maintain hygiene. Finally, always follow safety protocols, including using the built-in circuit breaker, overload protection, and forward-reverse switch for safe operation.
